Profile

Full-stack engineer focused on building and shipping web products end to end with React, TypeScript, Node.js, and PostgreSQL. Built production web applications across internships and personal products, including a live SaaS for billing-data workflows and a real-time collaboration platform used by a 5-person team. Strong fit for junior full-stack, frontend, product engineer, and startup roles where speed, ownership, and product sense matter

Professional Experience

- Founder, Raseen** ⓘ 2026
- Designed, built, and launched a live SaaS that turns messy billing data into accountant-ready CSV exports for solo SaaS founders.
 - Owned the full product lifecycle end to end: MERN architecture, billing and API integration, pricing, and go-to-market.
- Graduation project internship, GPRO Consulting** ⓘ 02/2025 – 05/2025
Sousse, Tunisia
- Built a full-stack project-management platform with React, Node.js, Express, and MongoDB to coordinate 30+ tasks for a 5-person team, including real-time messaging and role-based access control.
 - Designed 10+ reusable React components and reduced ticket-status update latency by 40% through client-state optimization and memoization.
- Summer Internship, Axia Solution** ⓘ 07/2024 – 07/2024
M'saken, Sousse
- Shipped 20+ pull requests and reviewed peer code on a production e-commerce site serving 50+ products.
 - Improved responsiveness across 3 breakpoints and reduced page-load time by about 30% with MongoDB indexing and image lazy loading.

Projects

- Scanni — Food Ingredient Analyzer** ⓘ , Flutter + Supabase 2026
- Built a mobile OCR application that scans product labels, extracts ingredients, computes nutrition against WHO daily recommendations, and decodes E-number additives.
- TicketSphere— Project Management System, MERN + WebSocket** ⓘ 2025
- Built a real-time ticketing platform with live chat, role-based views, and task tracking for team collaboration.
- Horizon Impact Site** ⓘ , TypeScript, Vercel 2026
- Built and deployed a polished product landing page with responsive sections, mobile-first layout, and conversion-focused UI for a nutrition-analysis product.

Education

- Bachelor's in Software Engineering, Ecole Polytechnique Sousse** ⓘ 2022 – 2025
Sousse
- Graduated with honors. Final-year project: Project Management Web Platform (MERN, MVC).

Skills

- Front-End:** React, TypeScript, responsive CSS, component design, state management, Flutter
- Back-End:** Node.js, Express, REST APIs, Python, JWT authentication
- Databases:** MongoDB, PostgreSQL, MySQL, Supabase, data modeling, indexing
- Cloud:** AWS Cloud Practitioner, Git, Agile/Scrum, unit testing, CI basics, code review

Certificates

- HTML and CSS**
IT Specialist
- AWS Cloud Practitioner**
AWS
- AI Engineer for Data Scientists**
Associate certification
DataCamp
